

This book analyzes the history of labour from the point of view of the ordinary men and women whose history it was. It provides an account of working-class life, as well as offering a guide to the major issues in labour and social history. The author examines the material conditions, such as income and housing, of working-class life; explores family and community life; and considers working-class values and organization. It may be of interest to undergraduate/postgraduate students of modern British economic, social, political and labour history, as well as industrial relations. It is also designed to be accessible to anyone interested in the history of the working class.

Annual Report Of The Illinois Farmers Institute, Volume 6 (Danish Edition), The Kingdom of Christ: Delineated in Two Essays on Our Lords Own Account of His Person and of the Nature of His Kingdom, and on the Constitution, ... as Appointed by Himself (Classic Reprint), Contemporary Issues Companion - Race and Ethnicity (paperback edition), Industry in England: Historical Outlines (Routledge Revivals), Friedrich Der Grosse in Seinen Schriften (German Edition),
