Introduction Which statement is the most valuable to you? A dinner for two that will last six hours or less; or knowledge from a book that will last a lifetime. As I compile this book Homeless in America its bring to mind the greatest and richest Country on Earth has created this National Disgrace because of selfness. How could this have happen? I know, it has happen because of Racism, selfness, greed, control, ignorant and its not my problem mentality. Really? It is all of our problem no matter your background. This is 2015 and the blame game is over. Life is a struggle no matter who you are. United States has its priorities in the wrong place. Number one, every able body sane Citizen in the United States over 18 should have the opportunity to be gainful employed and earn a decent wage to take care of him or her self. This should be a Constitution Amendment (a Right). No Immigration until homeless is solved. We as a Nation should take care of own before we can help any other Nation. Our Veterans must be the first to be taken good care of. They are the ones that has kept us free to enjoy the liberties that we enjoy. This solution will happen if we all unite and put petty problems behind us. The Church is doing nothing and will never do nothing because in most cases it about membership and not doing what Jesus intended. Religion only keep us divided. A part of our mind which deal with the sub conscious might say, those homeless people bought their situation upon themselves. Did you know that we all are very vulnerable in this Society. A natural disaster could happen at anytime and everything you ever owned could be destroyed in seconds. So count your blessing you have a job or paid your dues to Society after having a successful Career. Wake up America and roll up your sleeves and get to work and help make every Citizen accountable to do their share. Example: If one Team mate on a Football

Team is not doing his part to help the Team win. The Team will lose. Therlee Gipson
