

## Hunting and Gathering in the Corporate Tribe (HC)

The theory that corporations are evolved tribes opens entirely new ways of thinking about and analyzing modern business organizations. *Hunting and Gathering in the Corporate Tribe* shows how to apply the new field of corporate anthropology to the every day challenges of operating a business. Watch out. This book will shift your paradigm. - Dr. Marvin Dunnette, past President and Fellow of SIOP (The Society of Industrial and Organizational Psychologists) and author of the Handbook of Industrial and Organizational Psychology.
