

Handbook to the Cathedrals of England: Saint Pauls (Classic Reprint)

Excerpt from Handbook to the Cathedrals of England: Saint Pauls This Handbook is, essentially, an abridged edition of Dean Milmans Annals of St. Pauls, of which the text has been as far as possible retained unaltered. The material, however, has been re-arranged and some further architectural and other details have been added, in order to make the work consistent with the other volumes of this series of Handbooks for English Cathedrals, to bring it down to the present time, and to adapt it as a guide for visitors to the Cathedral. Constant reference has also been made to A History of the Three Cathedrals dedicated to St. Paul in London, by the late William Longman, which contains a full account of the three successive fabrics, based upon a careful survey of the older authorities. For the convenience of visitors to St. Pauls it may be well to state that the description of the Present Building is contained in Sections XL. to XLVII.; of the Monuments in Sections LX. to LXVIII., and of the Crypt in Sections LXIX. and LXX.
