

Reticulate Evolution and Humans is the first book to describe the effect of genetic exchange on the origin and evolution of our own species as well as those species with which we have and continue to interact closely, both evolutionarily and culturally. After demonstrating how genetic exchange has affected *H. Sapiens*, the book goes on to describe how the same processes have structured the evolution of organisms on which the human species depends for shelter, sustenance and companionship. It also considers the dark-side of gene transfer as it pertains to the evolution and adaptation of human disease vectors and diseases. The development of the central thesis of this book - that reticulate evolution via introgressive hybridization and lateral gene transfer has been a pervasive factor in the evolution and cultural development of *H. sapiens*, its ancestors, sister taxa and associated organisms - reveals the extent of these processes across the widest of taxonomic, temporal and spatial bounds. We cannot escape the conclusion that we are constantly fed, entertained, sheltered, attacked and killed by organisms that possess mosaic genomes reflective of widespread genetic exchange during evolutionary diversification.

Native America [3 volumes]: A State-by-State Historical Encyclopedia, Eat Fat, A Will and a Way: What the United States Can Learn from Canada About Caring for the Elderly (Columbia Studies of Social Gerontology and Aging), Ceramic Art of Japan, Eastern Destiny: Russia in Asia and the North Pacific, In the Land of the Gods Some Stories of Japan, de-Colonial Thoughts. de-Linking Epistemology, Rethinking Contemporaneity and de-Colonizing the Screen, White Nights, and Other Russian Impressions, The influence of history on individual and national action: Annual address before the State Historical Society of Wisconsin, Thursday evening, January 30th, 1868, The Scotch-Irish and their first settlements on the Tyger River and other neighboring precincts in South Carolina : a centennial discourse, delivered at Nazareth Church, Spartanburg District, S.C., September 14, 1861,
