

Toussaint LOuverture (1743-1803) won international renown in the Haitian fight for independence. He led thousands of former slaves into battle against French, Spanish, and English forces, routing the Europeans and seizing control of the entire island of Hispaniola. LOuverture became governor and commander-in-chief of Haiti before officially acknowledging French rule in 1801, when he submitted a newly written constitution to Napoleon Bonaparte (1769-1821) and the French legislature for ratification. In response, Bonaparte sent an army to depose LOuverture, who was taken prisoner in June of 1802 and shipped to France, where he died of pneumonia in April 1803. The Life of Toussaint LOuverture (1853) was first published in London on the fiftieth anniversary of LOuvertures death and remained the authoritative English-language history of LOuvertures life until the late twentieth century. Throughout the text, John Rely Beard compares LOuverture to famously successful white generals, argues for his supremacy, and states that his ultimate failure to liberate Haiti and untimely death are the products of unfortunate circumstances--not an indictment of his character or leadership abilities.
