

The Third World Beyond the Cold War: Continuity and Change

This book presents an overview of the changes brought about in Third World countries since the end of the Cold War. The themes chosen by the editors--economics, politics, security--are broadly interpreted so as to encompass the major areas of change among Third World countries. The regional case-studies--Asia-Pacific, Latin America, South Asia, Africa, the Middle East--were selected to bring out both the themes and the diversity of experience.
