

After Death: An Examination of the Testimony of Primitive Times Respecting the State of the Faithful Dead, and Their Relationship to the Living (Classic Reprint)

Excerpt from After Death: An Examination of the Testimony of Primitive Times Respecting the State of the Faithful Dead, and Their Relationship to the Living

The following treatise is in the main an examination of evidence, which is to be found by searching in early Christian documents of divers kinds. Not a few investigators have traversed some portions of the ground before me, and I feel conscious of having profited by their labours, but to what extent I find it difficult to say. Excepting in the chapter on the Catacombs, I have not taken anything of importance directly from them, but have endeavoured, however imperfectly, to work the matter out for myself.
